

FIELD-READY PRODUCT CATALOG

READY-TO-SHIP FIBER OPTIC PRODUCTS

Organized by deployment scenario
and field task

For fiber internet providers, network contractors
and deployment teams

Choose Products Around the Work

A practical purchasing sequence

1

Start with the network location

SDU, MDU, outside plant, customer premises, connectivity or maintenance.

2

Identify the task

Confirm whether the crew is routing, splitting, terminating, connecting, protecting or maintaining fiber.

3

Open the product page

Use the linked product name to review the available configuration and send the required specification.

4

Confirm availability

Ready-to-ship status, quantity and dispatch timing should be reconfirmed before placing an order.

Helpful details to send with an inquiry

Application - route type - interface - port or fiber count - cable length - quantity - delivery location

Catalog Sections

01	SDU & Subscriber Access	13 products

DEPLOYMENT SCENARIO

SDU & Subscriber Access

Select products around the drop route, PON split, access point and subscriber activation task.

13 ready-to-ship products in this section

SPLIT & DISTRIBUTE PON CAPACITY

MultiPort Connectorised Block Terminal (CBT) 2-12 Ports

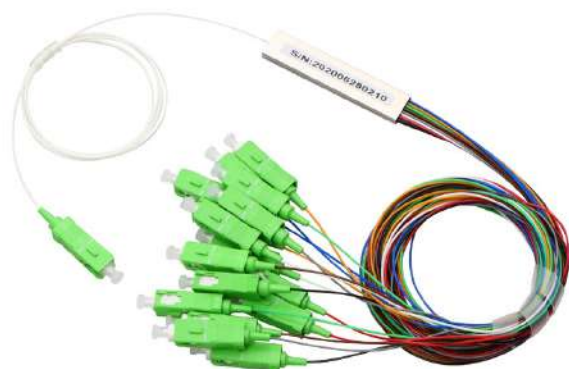

Use it to match serving-area capacity while reducing field assembly and simplifying subscriber activation.

SPLIT & DISTRIBUTE PON CAPACITY

1x32 PLC Splitter - Blockless, ABS Type, Cassette, and Rack Mount

Use it to match serving-area capacity while reducing field assembly and simplifying subscriber activation.

SPLIT & DISTRIBUTE PON CAPACITY

1x16 PLC Splitter for FTTX, MDU & GPON

Use it to match serving-area capacity while reducing field assembly and simplifying subscriber activation.

SPLIT & DISTRIBUTE PON CAPACITY

1x8 PLC Splitter with SC/APC Connectors

Use it to match serving-area capacity while reducing field assembly and simplifying subscriber activation.

CONNECT THE SUBSCRIBER DROP

SC FTTH Drop Fiber Patch Cable

Choose it where the drop route needs a dependable interface and construction suited to field conditions.

CONNECT THE SUBSCRIBER DROP

Stainless Steel Fiber Drop Cable Clamp

Choose it where the drop route needs a dependable interface and construction suited to field conditions.

CONNECT THE SUBSCRIBER DROP

1 Core Fiber Drop Cable Protection Box

Choose it where the drop route needs a dependable interface and construction suited to field conditions.

SPLIT & DISTRIBUTE PON CAPACITY

1x2 FBT Splitter, Singlemode, 2.0mm Cable SC Connector

Use it to match serving-area capacity while reducing field assembly and simplifying subscriber activation.

CONNECT THE SUBSCRIBER DROP

Flat Drop Cable - Toneable Fiber Optic Cable for FTTH, 1-12 Fibers

Choose it where the drop route needs a dependable interface and construction suited to field conditions.

CONNECT THE SUBSCRIBER DROP

4.8mm Round FTTH Drop Cable G657.B3

Choose it where the drop route needs a dependable interface and construction suited to field conditions.

SPLIT & DISTRIBUTE PON CAPACITY

Flexible Service Terminal - FST Squid Splitter 2-16 Ports

Use it to match serving-area capacity while reducing field assembly and simplifying subscriber activation.

SPLIT & DISTRIBUTE PON CAPACITY

1x4 PLC Splitter with SC/APC Connectors

Use it to match serving-area capacity while reducing field assembly and simplifying subscriber activation.

SPLIT & DISTRIBUTE PON CAPACITY

1×2 PLC Splitter with SC/APC Connectors

Use it to match serving-area capacity while reducing field assembly and simplifying subscriber activation.

DEPLOYMENT SCENARIO

MDU & Building Distribution

Organize building entrance, riser, floor and unit distribution around a maintainable architecture.

9 ready-to-ship products in this section

DISTRIBUTE & TERMINATE BUILDING FIBER

48 Ports Fiber Enclosure, Outdoor Wall Mount

Use this configuration to organize splices, splitters and subscriber connections inside the building.

DISTRIBUTE & TERMINATE BUILDING FIBER

8 Ports Fiber Distribution Box FDB08D

Use this configuration to organize splices, splitters and subscriber connections inside the building.

DISTRIBUTE & TERMINATE BUILDING FIBER

8 Ports Fiber Termination Box FDB08E

Use this configuration to organize splices, splitters and subscriber connections inside the building.

DISTRIBUTE & TERMINATE BUILDING FIBER

16 Ports Fiber Termination Box, Wall Mount Outdoor Enclosure

Use this configuration to organize splices, splitters and subscriber connections inside the building.

DISTRIBUTE & TERMINATE BUILDING FIBER

16 Ports Fiber Distribution Box, Outdoor Fiber Enclosure

Use this configuration to organize splices, splitters and subscriber connections inside the building.

DISTRIBUTE & TERMINATE BUILDING FIBER

16 Ports Fiber Optic Terminal Box, Splitter Distribution Box

Use this configuration to organize splices, splitters and subscriber connections inside the building.

DISTRIBUTE & TERMINATE BUILDING FIBER

8 Ports Splitter Fiber Distribution Box for MDU

Use this configuration to organize splices, splitters and subscriber connections inside the building.

DISTRIBUTE & TERMINATE BUILDING FIBER

8 Ports Fiber Optic Termination Box

Use this configuration to organize splices, splitters and subscriber connections inside the building.

DISTRIBUTE & TERMINATE BUILDING FIBER

NID Termination Box - 2 Port Fiber Termination Box, OEM Factory Supply

Use this configuration to organize splices, splitters and subscriber connections inside the building.

DEPLOYMENT SCENARIO

Outside Plant Distribution

Build underground and aerial routes that remain accessible for expansion and field maintenance.

10 ready-to-ship products in this section

BUILD UNDERGROUND PATHWAYS

Inflatable Duct Sealing System for Fiber & Electrical Cable Duct Sealing

Use this product to prepare conduit capacity, simplify cable placement and preserve dependable future access.

BUILD & MAINTAIN AERIAL ROUTES

J-Hook Suspension Clamp for ADSS Cable

Add it to the pole-line build to support cable, control loading and keep aerial plant easier to maintain.

BUILD & MAINTAIN AERIAL ROUTES

Anchor Clamp for ADSS Cable - PA2000

Add it to the pole-line build to support cable, control loading and keep aerial plant easier to maintain.

BUILD & MAINTAIN AERIAL ROUTES

Universal Pole Bracket UPB

Add it to the pole-line build to support cable, control loading and keep aerial plant easier to maintain.

BUILD & MAINTAIN AERIAL ROUTES

3 Bolt Cable Suspension Clamp

Add it to the pole-line build to support cable, control loading and keep aerial plant easier to maintain.

BUILD & MAINTAIN AERIAL ROUTES

Round Type Fiber Slack Storage System

Add it to the pole-line build to support cable, control loading and keep aerial plant easier to maintain.

BUILD & MAINTAIN AERIAL ROUTES

Fiber Storage SnowShoes, Fiber Slack Storage System

Add it to the pole-line build to support cable, control loading and keep aerial plant easier to maintain.

BUILD UNDERGROUND PATHWAYS

3 Cell Fabric Innerduct Textile Subduct

Use this product to prepare conduit capacity, simplify cable placement and preserve dependable future access.

BUILD UNDERGROUND PATHWAYS

Detectable Mule Pull Tape 1/2", 5/8", 3/4" Customized Length

Use this product to prepare conduit capacity, simplify cable placement and preserve dependable future access.

BUILD UNDERGROUND PATHWAYS

1/2" x 3000' 1250 lbs Polyester Pull Tape / Mule Tape

Use this product to prepare conduit capacity, simplify cable placement and preserve dependable future access.

DEPLOYMENT SCENARIO

Customer Premises Handoff

Complete the final handoff with clean routing, protected termination and organized equipment mounting.

17 ready-to-ship products in this section

COMPLETE THE CUSTOMER HANDOFF

Single Gang (1-Gang) Low Voltage Mounting Bracket, Black

Use it to create a cleaner, protected and serviceable final connection around the outlet, NID or ONT.

COMPLETE THE CUSTOMER HANDOFF

Fiber ONT Wall Mount Bracket Holders

Use it to create a cleaner, protected and serviceable final connection around the outlet, NID or ONT.

COMPLETE THE CUSTOMER HANDOFF

Nokia ONT G-010G-A Wall Mount Bracket

Use it to create a cleaner, protected and serviceable final connection around the outlet, NID or ONT.

COMPLETE THE CUSTOMER HANDOFF

Nokia ONT G-010G-T Wall Mount Bracket

Use it to create a cleaner, protected and serviceable final connection around the outlet, NID or ONT.

COMPLETE THE CUSTOMER HANDOFF

Nokia XS-230X-A Wall Mount Bracket Holder

Use it to create a cleaner, protected and serviceable final connection around the outlet, NID or ONT.

COMPLETE THE CUSTOMER HANDOFF

Adtran SDX 600 Wall Mount Bracket - Fiber Tray & ONT Holder

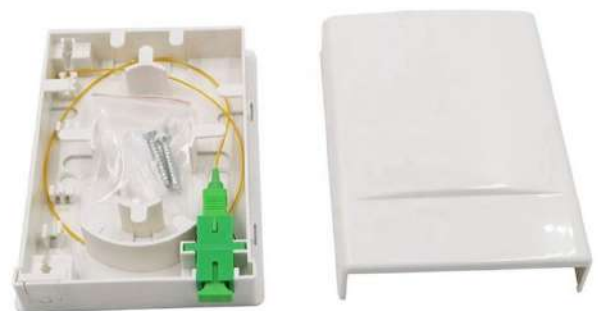

Use it to create a cleaner, protected and serviceable final connection around the outlet, NID or ONT.

COMPLETE THE CUSTOMER HANDOFF

Nokia XS-010G-Q Wall Mount Bracket

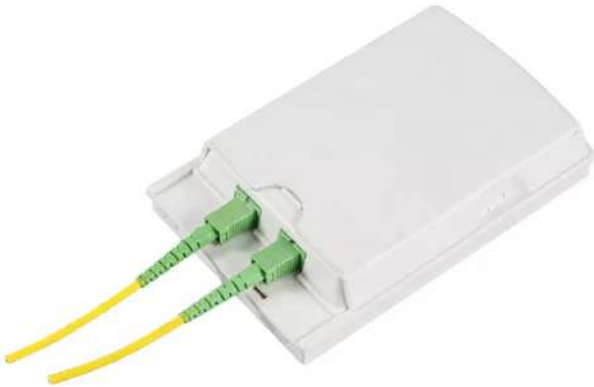

Use it to create a cleaner, protected and serviceable final connection around the outlet, NID or ONT.

COMPLETE THE CUSTOMER HANDOFF

SC Wall Mount Socket Outlet Faceplate

Use it to create a cleaner, protected and serviceable final connection around the outlet, NID or ONT.

COMPLETE THE CUSTOMER HANDOFF

2 Ports Fiber Optic Socket Panel

Use it to create a cleaner, protected and serviceable final connection around the outlet, NID or ONT.

ROUTE & FINISH PREMISES CABLING

Cat6a Patch Cable, 10G Ethernet Network Cable

Apply it where premises cabling needs secure support, clearer identification or a more professional finish.

ROUTE & FINISH PREMISES CABLING

Cat5e Patch Cable

Apply it where premises cabling needs secure support, clearer identification or a more professional finish.

COMPLETE THE CUSTOMER HANDOFF

2 Port Fiber NID Box Network Interface Device

Use it to create a cleaner, protected and serviceable final connection around the outlet, NID or ONT.

ROUTE & FINISH PREMISES CABLING

Cable Screw Clip 1/2" Depth, Single or Dual, Black or White - 100 Pack

Apply it where premises cabling needs secure support, clearer identification or a more professional finish.

ROUTE & FINISH PREMISES CABLING

Cat5e RJ45 Connector

Apply it where premises cabling needs secure support, clearer identification or a more professional finish.

ROUTE & FINISH PREMISES CABLING

1/2" 2-Hole PVC Pipe Straps, Plastic Conduit Strap for PVC Pipes

Apply it where premises cabling needs secure support, clearer identification or a more professional finish.

ROUTE & FINISH PREMISES CABLING

Cat6 RJ45 Connector for Network Cable

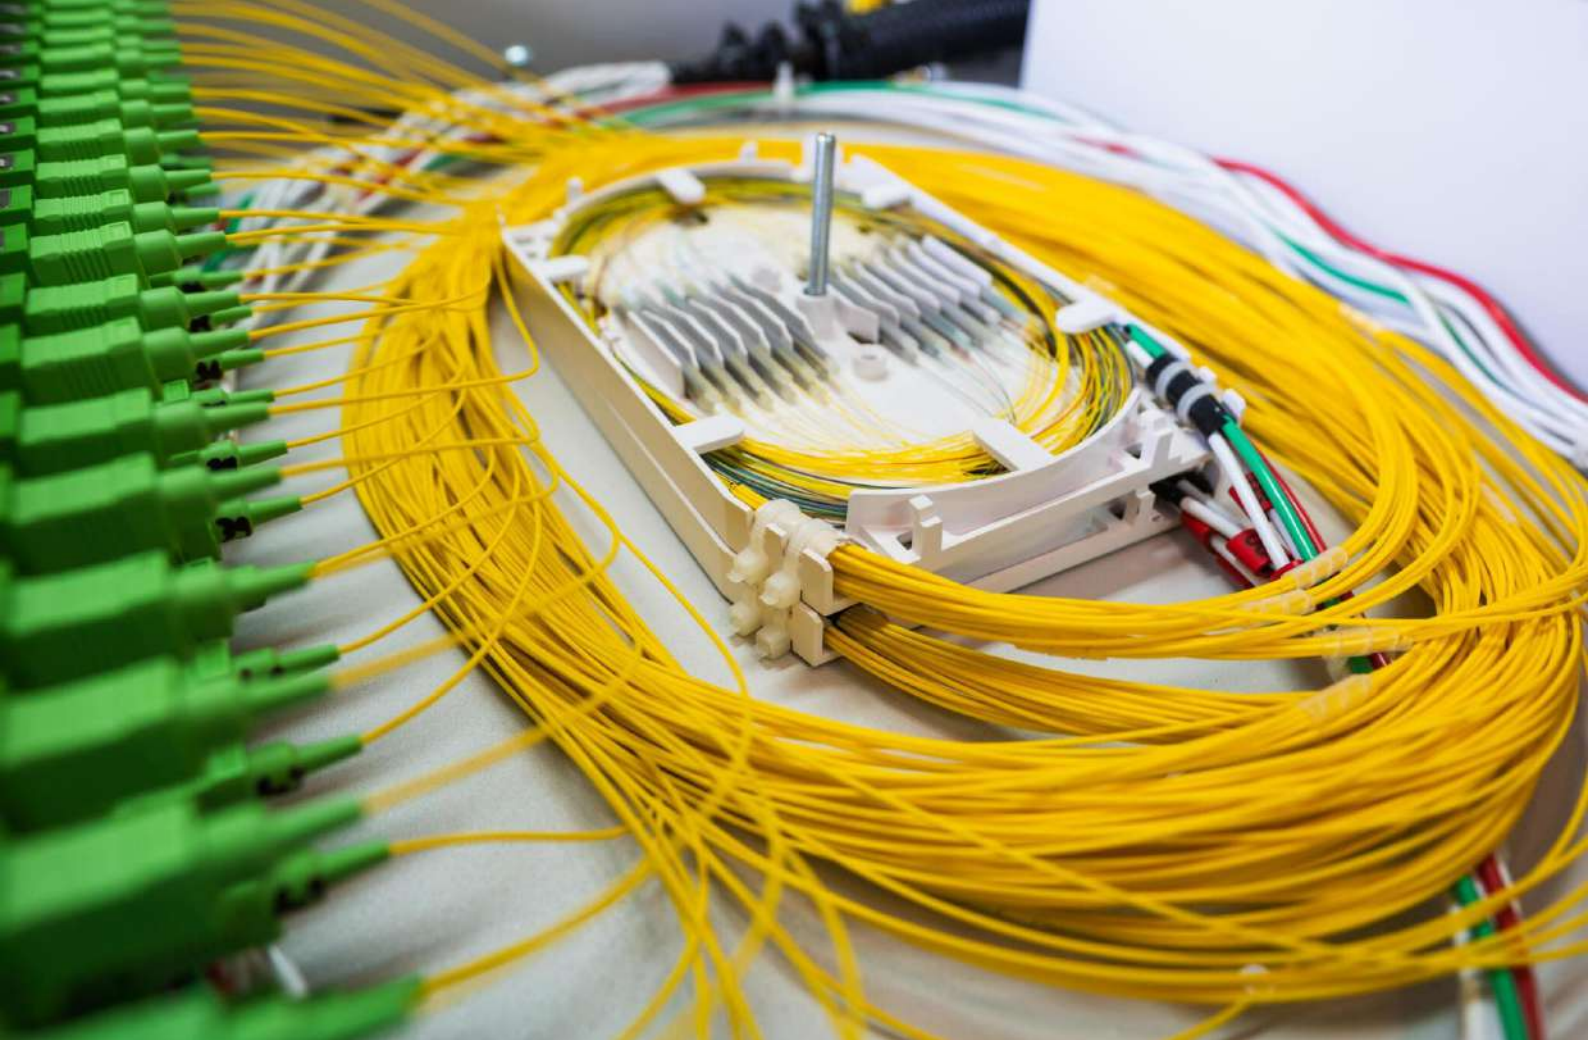

Apply it where premises cabling needs secure support, clearer identification or a more professional finish.

ROUTE & FINISH PREMISES CABLING

1/2" Plastic Splitting Riser Tubing 6FT or Customized

Apply it where premises cabling needs secure support, clearer identification or a more professional finish.

DEPLOYMENT SCENARIO

Fiber Connectivity

Match connector, fiber, jacket and assembly construction to the interfaces already in service.

15 ready-to-ship products in this section

CONNECT EQUIPMENT & FIBER INTERFACES

Ultra High Fiber Count Assemblies SC LC MPO

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

CONNECT EQUIPMENT & FIBER INTERFACES

Spiral Steel Armored Tactical Fiber Optic Cable

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

CONNECT EQUIPMENT & FIBER INTERFACES

SC Waterproof Fiber Optic Pigtail

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

CONNECT EQUIPMENT & FIBER INTERFACES

SC Multi-fiber Trunk Cable

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

CONNECT EQUIPMENT & FIBER INTERFACES

SC Single Mode Indoor Armored Fiber Optic Cable

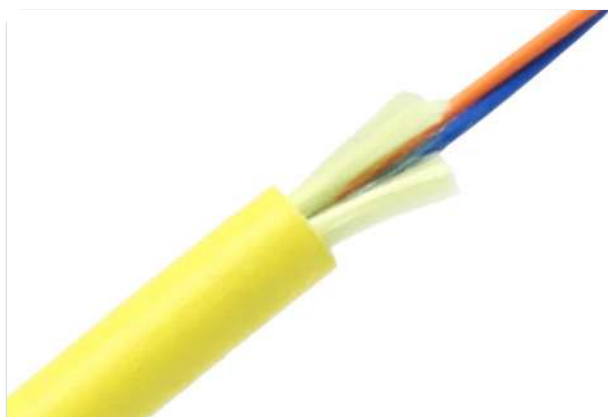

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

CONNECT EQUIPMENT & FIBER INTERFACES

SC/APC Fiber Optic Adapter with Internal Shutter - Singlemode Simplex, Green Plastic

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

CONNECT EQUIPMENT & FIBER INTERFACES

Indoor Tight Buffer Fiber Cable - OS2 Corning Fiber, Plenum Rated (OFNP), 2-24 Cores

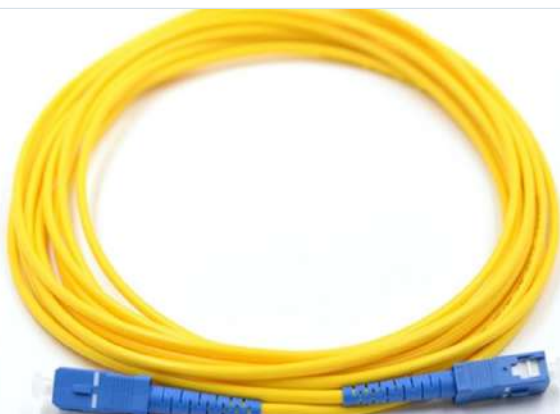

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

CONNECT EQUIPMENT & FIBER INTERFACES

Tight Buffer Distribution Fiber Optic Cable - Indoor/Outdoor, OFNP, 2-24 Cores

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

CONNECT EQUIPMENT & FIBER INTERFACES

SC/UPC Fiber Patch Cable

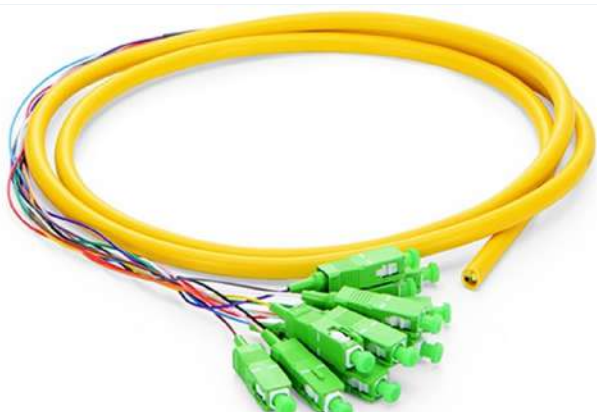

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

CONNECT EQUIPMENT & FIBER INTERFACES

SC/APC Simplex Patch Cable for FTTH

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

CONNECT EQUIPMENT & FIBER INTERFACES

12 Core SC Fiber Optic Pigtails Bunch Type

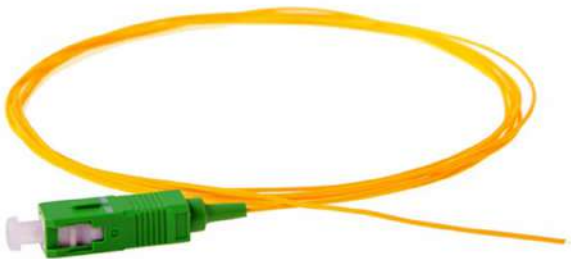

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

CONNECT EQUIPMENT & FIBER INTERFACES

12 Fibers SC/APC Pigtail - G657A Singlemode, LSZH Jacket, Color-Coded

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

CONNECT EQUIPMENT & FIBER INTERFACES

SC/APC Singlemode Fiber Pigtail, Simplex, LSZH Rated

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

CONNECT EQUIPMENT & FIBER INTERFACES

SC/APC Singlemode Duplex Fiber Adapter

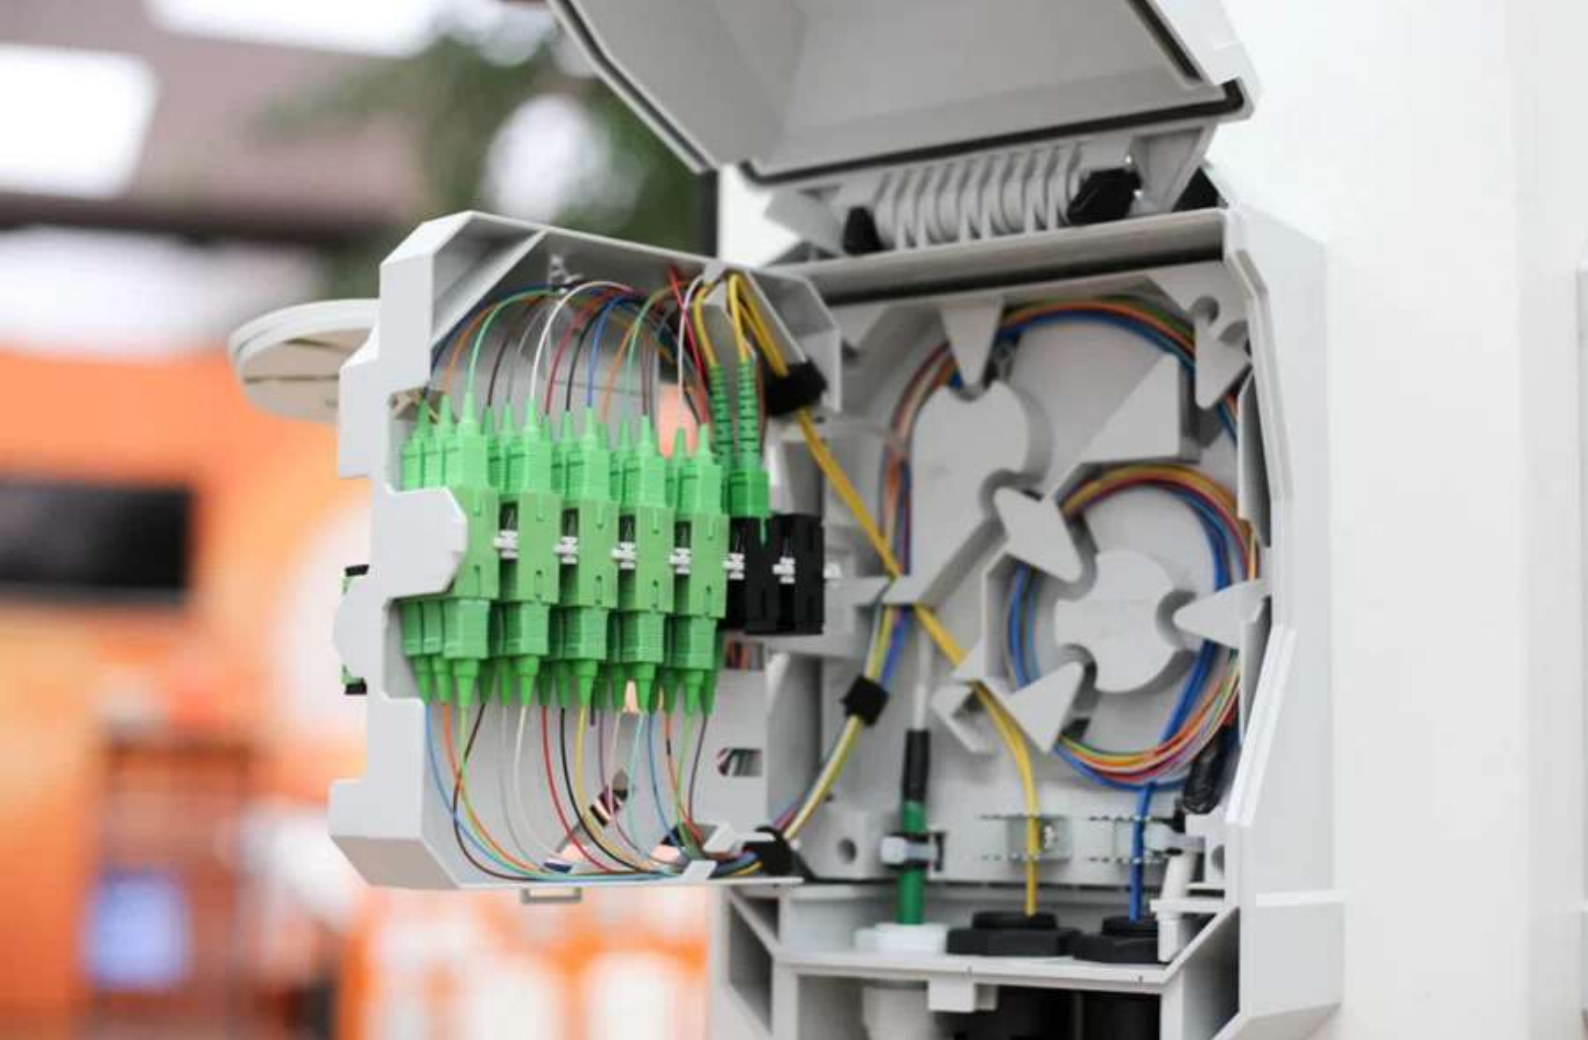

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

CONNECT EQUIPMENT & FIBER INTERFACES

SC/APC Singlemode Simplex Fiber Adapter

Use it to create a consistent optical link matched to the connectors, fiber and equipment already in service.

DEPLOYMENT SCENARIO

Installation & Network Maintenance

Equip crews to clean, prepare, splice, identify and protect fiber during routine field work.

12 ready-to-ship products in this section

SUPPORT FIELD INSTALLATION

Adtran 411 Wall Mount Bracket Holder

Use this practical accessory to remove a small installation obstacle before it becomes delay or rework.

SUPPORT FIELD INSTALLATION

Adtran SDX 630 Wall Mount Bracket Holder

Use this practical accessory to remove a small installation obstacle before it becomes delay or rework.

PREPARE, SPLICE & MAINTAIN FIBER

Fiber Optic Connector Cleaner (cassette style)

Give field crews a repeatable way to protect optical performance and complete cleaner maintenance work.

PREPARE, SPLICE & MAINTAIN FIBER

Fiber Optic Cleaning Pen for SC, FC, ST, LC, MU, and E2000

Give field crews a repeatable way to protect optical performance and complete cleaner maintenance work.

PREPARE, SPLICE & MAINTAIN FIBER

2.5mm Foam Tipped Fiber Cleaning Swabs

Give field crews a repeatable way to protect optical performance and complete cleaner maintenance work.

PREPARE, SPLICE & MAINTAIN FIBER

Fiber Optic Cleaning Wipes - 280pcs Kimtech Kimwipes

Give field crews a repeatable way to protect optical performance and complete cleaner maintenance work.

PREPARE, SPLICE & MAINTAIN FIBER

4" / 7.25" Fiber Optic Cable Wrap Around Label

Give field crews a repeatable way to protect optical performance and complete cleaner maintenance work.

PREPARE, SPLICE & MAINTAIN FIBER

Buried Fiber Optic Cable Flag

Give field crews a repeatable way to protect optical performance and complete cleaner maintenance work.

PREPARE, SPLICE & MAINTAIN FIBER

High Precision FC-6S Fiber Cleaver

Give field crews a repeatable way to protect optical performance and complete cleaner maintenance work.

PREPARE, SPLICE & MAINTAIN FIBER

Ribbon Fiber Protection Sleeve 6 & 12 Fibers

Give field crews a repeatable way to protect optical performance and complete cleaner maintenance work.

PREPARE, SPLICE & MAINTAIN FIBER

60mm Fusion Splice Sleeve

Give field crews a repeatable way to protect optical performance and complete cleaner maintenance work.

PREPARE, SPLICE & MAINTAIN FIBER

Pro'sKit 8PK-326 Fiber Optic Stripper

Give field crews a repeatable way to protect optical performance and complete cleaner maintenance work.

Confirm Availability and Specifications

Send the product link together with the required configuration, quantity and delivery location. The Bativ team can confirm current availability and prepare a focused quotation.
